When Convention City Will
Be Selected.
[SPECIAL TO THE GAZETTE.]
French Lick, Ind., Nov. 22.—Democrats of national importance began to arrive here this morning, and at noon there was a small colony of distinguished members and advisers of the national committee ready to take part in the meeting of that body called by Chairman Thomas Taggart.
The purpose of the meeting, as announced in the call, is to fix the time and place for another meeting of the committee to decide as to the next national convention. The second meeting will probably be held next month, either in Washington or Chicago. While no decision on the convention meeting place is to be reached at the present meeting, it is expected that there will be considerable informal discussion of the matter nevertheless. The cities that are applicants for the convention are Cincinnati, St. Paul, Milwaukee, St. Louis, Chicago, Louisville and Atlanta City. William J. Bryan has expressed a preference in favor of Chicago, owing to its central location and ample facilities, though it is understood he would be satisfied with the selection of any other leading city of the middle West.

MAINE TO FURNISH CHRISTMAS TREES

Big Supply of Christmas Trees to
Come From "Pine Tree" State
As Usual.
[SPECIAL TO THE GAZETTE.]
Bangor, Me., Nov. 22.—The work of cutting Christmas trees in Maine for the rest of the country is now at its height. Nearly 4,000,000 trees are in demand annually, and in this state the Christmas tree trade has become an industry of the first importance. For several weeks past workmen have been engaged in selecting and cutting the trees in the central and northern parts of the state. Now the process of loading and shipping them on flat cars to the big cities of the East and Middle West has begun. Only a few years ago it was the smaller trees that were sold the most. Now the larger trees are most in demand, owing to the fact that the small family tree has been largely done away with in favor of the larger tree used in common by the members of churches, societies and other organizations. The trade puts many thousands of dollars into the pockets of the thrifty Maine farmer and woodsman each year.

OF ALBERT ZUMBACH OF
BELOIT.
[BY ASSOCIATED PRESS.]

Every vessel sailing from New York for Europe the past few weeks has carried full steerage lists, and those scheduled to sail between now and Christmas already are fully booked, leaving thousands unable to obtain accommodations. It is estimated that the one-hundred steamer for November and December will be many times that of the corresponding months of last year.

FOUND GUILTY BY JURORS

Demurrer to Complaint of Kate Rich-
ter Against City Was Overruled
—Other Cases.
William Hiller, charged with the state's prison offense of assault with intent to rob Albert Zumbach, was found guilty of simple assault by the jury which returned a verdict, after five hours of deliberation, at three o'clock this afternoon. Judge Grimm in addressing the prisoner said that the first step in palliation of a crime was to confess it like a man. Had the defendant done this in the first instance he would have been disposed to make the sentence as lenient as possible, but even as it was, considering the heart ache of parents, and other mitigating circumstances, he was not disposed to give him the extreme penalty—a year's imprisonment in the county jail. The court concluded by imposing a sentence of one year in the Green Bay reformatory.

COUNTY OWES CITY \$4,000 FOR FEES

Racine County In Debt to City of Ra-
cine for State Warrants Served
by the Police.
[SPECIAL TO THE GAZETTE.]
Racine, Wis., Nov. 22.—At a meeting of the county board today, City Clerk William Armstrong created a mild sensation among the county members by making claim that the county, under the law, was obliged to pay back to the city treasury close to \$4,000 for fees that should have been collected for state warrants served by the police. It is claimed that for the past six years all of this money has gone into the county treasury when it should have been paid into the city treasury up to October first when it should have been paid into the police pension fund under the new law.

CITY OFFICIALS AND CAR COMPANY IN TILT

Mayor and City Attorney of Mani-
towoc Have Street-car Company
Arrested but Back Out.
[SPECIAL TO THE GAZETTE.]
Manitowoc, Wis., Nov. 22.—Because city officials who caused the arrests, declined to appear as witnesses for the state, the criminal action against Thomas Higgins, president, and James Phair, superintendent of the Northern Traction Co., was dismissed in municipal court yesterday and the city will pay the costs. The two were charged with damaging Eleventh street bridge which the council had ordered closed to the company's cars because of needed repairs which the company was said to have refused to make. The arrest was ordered in the heat of passion by the mayor and city attorney and the district attorney declared that a conviction could not be secured, especially as the attorney and mayor refused to be witnesses. The Traction Co. may retaliate by bringing charges against the city officials under section 4381, Revised Statutes of 1898, which makes it a felony to interfere with car lines.

STORM CAUSED BIG LOSS AT MANITOWOC

Heavy Damage to Government Pier

Penalty to Company.
[SPECIAL TO THE GAZETTE.]
Manitowoc, Wis., Nov. 22.—Losses sustained by the Great Lakes Dredge Co. of Superior as a result of the storm Wednesday night will be in excess of \$50,000, it is now said, and because of the delay caused the company will be unable to complete its contract Nov. 1, 1908, as required and will be penalized by the government. Protect Crossing and Council Will
Ask Aid of Commission.
[SPECIAL TO THE GAZETTE.]
La Crosse, Wis., Nov. 22.—An announcement by the officials of the Milwaukee railroad company that they consider the Mill street crossing on the north side sufficiently protected and that they can consider no plans which will entail extra expense, the common council will place the matter before the state railroad commission, and the aid of the state officials will be asked in order to protect the public. The crossing is one over which hundreds of persons pass every day and has been the source of two fatal accidents within a few months, besides which a number of narrow escapes have occurred. The crossing is protected by a watchman but from the numerous accidents that have occurred there it is considered such protection is insufficient.

MAURETANIA BROKE THE WORLD'S RECORD

Appears off Sandy Hook this Morning
at Ten—Wonderful Trip
Across.
[BY ASSOCIATED PRESS.]
New York, Nov. 22.—The steamer Mauretania was off Sandy Hook at ten this morning.
The Mauretania started on her maiden trip to New York last Sunday with \$13,750,000 in gold aboard. This boat is the acme of nautical construction today. Her sister ship, the Lusitania, has broken all records for trans-Atlantic speed, for beauty of construction, for installing a new type of engine, the turbines, but it is left to the Mauretania to go one step farther and today she is supreme. This boat is one of Cunard liners. It is a few inches longer than the Lusitania and exceeds the Lusitania by 200 tons in gross tonnage. On her trial trip she maintained 25 knots an hour, which is considerable faster

each for the sum of ninety-two thousand dollars. He declared he made the notes, signed various names to them and discounted them at the direction of Walsh and when the notes fell due made out new ones in their stead. The old notes, he said, were paid by means of the discount credit tickets and then destroyed. The same collateral for a hundred thousand dollars in bonds of the Illinois Southern railway was accepted by the bank for the old and new notes.

GREAT CONVENTION OF THE Y. M. C. A.

International Meeting of Association Opened in Washington Today.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., Nov. 22.—Washington is entertaining today one of the most distinguished gatherings of men that has ever assembled here. At its leading hotels, or at the residences of its representative citizens, are to be found members of the clergy, philanthropists, educators and statesmen gathered from many parts of the world. They are here as delegates to the thirty-sixth international convention of the Young Men's Christian Association, which opened in D. A. R. Continental Hall this afternoon for a session of four days. Preparations for the convention have been in progress since the beginning of the year, and its deliberations are expected to have a wide influence in the field of Christian work.

The roll call showed an attendance of delegates representing all parts of the United States and Canada, together with a liberal representation of the associations in Great Britain, France, Russia, China, Japan, India, Australia, the Philippines and several of the South American countries. Occupying places of honor upon the platform were R. Sarasin-Warnory and Christian Philides, representing the world's committee at Geneva, Switzerland; K. Yamamoto, general secretary of the Y. M. C. A. of Japan; Bishop Brent of Manila; the Rt. Hon. James Bryce, the British ambassador; Bishop William F. Mc Dowell of Chicago; Robert E. Spear of New York; Dr. Floyd W. Tomkins of Philadelphia, and Hon. J. A. Macdonald of Toronto.

An exceptionally strong group of speakers will be heard during the four days of the convention. They will emphasize association fundamentals with special reference to their relation to the future growth. Men of prominence in public affairs, such as William J. Bryan of Nebraska, Governor Glenn of North Carolina, and Dr. Charles H. Parkhurst of New York, will deal with social and civil themes, and emphasis will be placed on Christian service rather than upon association details and methods.

Among the topics to which attention will be given by the convention are the following:

"How Can the Young Men's Christian Association of the Future Render the Largest Service to the Church?"

"What Constitutes a Nation's Greatness?"

"Essential Unity of the Human Race Rooted in Jesus Christ."

"Some Subtle Perils in the Pathway of Young Men in Our Time."

"The Nation's Need of Strong Christian Young Men."

"Civic Responsibility of Christian Young Men."

"The Association a Challenge to Service."

"The Application of the Truth of God to the Lives of Young Men the Secret of Power."

"The Supremacy and Sufficiency of Jesus Christ to Meet All the Needs of Young Men."

"The Holy Spirit, the Source of Continued and Increasing Vitality of the Young Men's Christian Association."

"The Young Man in His Daily Life as a Personal Representative of Jesus Christ."

"The Type of Young Manhood to be Developed by the Association to Meet the Needs of the Present Day."

"The Fraternal Spirit in the Association."

"The Association and the Immigrant."

"The Association and the Working Man."

"Regions Beyond, or Open Doors in the Work of the North American Associations."

There is a humorous touch about the misfortunes of a worker among cholera victims in the Punjab. At Cleveland, while industrial conditions remained unsettled and a number of manufacturing establishments have reduced their operating forces the banks are relaxing to a considerable extent and are taking care of all necessary transactions.

But what buying is now resumed on a moderate scale and is expected to attain large proportions as soon as more cash is available, as there has been a heavy tonnage engaged for which cargoes must be provided. Oats are going into consumption rapidly, and only a trifling proportion of the barley crop remains unsold.
"Inability to supply currency needs at St. Paul still interferes with the marketing of farm products, and collections are below the normal. Imports are more conservative, but there are few cancellations and jobbing trade holds up well.

PLAN TO STOP THE FAMOUS DROP KICK
University Players Are on Edge For the Minnesota Game of Saturday.
[Special to this Gazette.]
Madison, Wis., Nov. 22.—Preparing to block the famous drop kick of Minnesota, the University variety football players were lined up yesterday for an hour while "Rocky" Moll, the clever kicking freshman, tried to boot over the goal posts from the 20-yard line. At each pass to the kicker, certain designated regulars chained to block the kick, and although few kicks were actually blocked, Moll only twice succeeded in getting the ball to soar over the bar. A special system of signals has been worked out to stop Capron. Several methods of attack are ready and when the kicker falls back Wisconsin gives the signal for the attempt to block. This blocking work and some fast signal practice was all the badgers did yesterday, and the schedule for today is a light signal drill.
This gopher train arrived at 8:30 a. m. today.
No bottling is being done, Madison people demanding four odds or even money on Minnesota's getting two touchdowns.
Official weights of Wisconsin were given out last night as follows:
Left end, Rogers, 165 pounds; left tackle, Doyle, 185; left guard, Huntley, 180; center, Stelmus, 183; right guard, Davidson, 178; right tackle, Dittman, 168; right end, Captain Messner, 174; quarterback, Cunningham, 135; left half, Fuchs, 160; right half, Oshoff, 184; fullback, Wilson, 158.
Total weight, 1,860 pounds.
Average, 170 pounds.
Minnesota outweighs Wisconsin about 150 pounds, the gopher backfield having an average of 20 pounds to spare on the Badger backfield.
PRESS COMMENT.
Reform Sure to Be Popular
Chicago Tribune: The Carnegie-Clayton plan of football will eliminate the brutality of charging admission fees at the games.
Looking Backward
Exchange: About this time last year, you may remember, the San Francisco grafters were looking the red-hot fund.
Originator of a Precedent
Exchange: Issuing bonds in time of stress in the money market is a good thing, gentlemen, but I bent you to it.—G. Cleveland.
The Ice and the Boy
Madison Democrat: Thin ice and a small boy form a combination that now causes almost as much concern as the financial situation.
Has Spells of Broad-mindedness
Beloit News: Bryan does not blame the president for the money panic, neither do the rest of us. W. J. B. isn't half bad sometimes.
A Tip to Bryan
New York Commercial: If Bryan ever gets winded in "running" for the presidency he might take a leaf from Edward Payson Weston's book: He can keep himself in the public eye merely by walking.
Hero, Something of a Sounder
Superior Telegram: Poor old Buffalo Bill! They keep dragging his picturesque figure into other folk's domestic disturbances, just as if he hasn't some of his own. Apparently Bill was too sporty for his own good.
Johnson is for W. J. B.
Milwaukee Sentinel: One good turn deserves another. Mr. Bryan this time considerably kept his hands off while Tom Johnson was running for office, and Mr. Johnson reciprocates by endorsing Mr. Bryan's candidacy.
Sentiment—Made in Wisconsin
Madison Journal: The Milwaukee Free Press under startling headlines announces in a special dispatch from a "staff correspondent" (Mr. Coehmann) that "Minnesota speaks for La Follette." It is a graceful compliment of course to the Minnesotans to refer to the speeches of the three Wisconsin orators as Minnesota speeches.
Take Your Choice
Exchange: The fact that a brutal dog fight was "pulled off" in Milwaukee a few nights ago, and that all the newspapers knew of it, and the police were not aware of it, simply proves again the superior detective qualities of the newspaper reporter—or does it prove that some policeman winked at the affair?

HOARDING
In the panic of 1893 there was the same hoarding of money that is experienced this year. It is impossible, however, to express in figures the entire extent of the hoarding, but notwithstanding the falling off in the volume of business in that year the amount of money which was held by the people outside of the treasury and the banks increased.
The statistics of the comptroller of the currency show that from 1892 to 1893 the amount of money held outside of the treasury and the banks increased \$66,000,000. In 1894 confidence having largely returned, the amount thus held outside of the treasury and the banks declined \$110,000,000. This gives some idea of the extent of the hoarding and of the subsequent return of hoarded money in these years.
Prosperity, as well as panic, results in increasing the amounts of money held by the people outside of the banks and the treasury. There is, however, this difference, that whereas in years of panic and depression the money is locked up, in years of prosperity it is in active use, passing from hand to hand.
At no time in our history has the amount of money been so great outside of the treasury and the banks as it was in 1906. In that year of the total amount of money in the United States, amounting to \$2,060,000,000, \$1,733,000,000 was in use outside of the treasury and the banks, this being 84.1 per cent of the whole. The per capita circulation of money outside of the banks and the treasury amounted to 20.48 as compared with 19.22 in 1906 and 15.50 in 1892. Thus we entered upon the panic of this year with an extraordinary amount of actual money in the hands of the people. It is fair to assume that this money still remains in their hands and in addition a large sum withdrawn from the banks. In addition to individual hoarding, there has been an extensive bank hoarding, that is to say, many institutions have increased their reserves during this period in order to protect themselves.
TRADE ON REBOUND
One of the authorities of the commercial world of America is R. G. Dun & Co. They decide upon the businessman's credit and upon their judgment large business transactions are begun and completed. The R. G. Dun & Co. have agents in different parts of the country who carefully investigate business conditions, hence their judgment can be relied upon. When the report of R. G. Dun & Co. was made public this morning saying that trade is on the rebound from the late depression, it means something. Under the date of New York the following is their report, which should encourage businessmen the country over:
"Considerable improvement in commercial, financial and manufacturing circles throughout the country is indicated in reports from various centers which have been received by R. G. Dun & Co. Some of the cities where the financial stringency was most severely felt a week ago have a steadily increasing supply of currency, and as a result business in general is in a more satisfactory state.
"The increase in currency supplies at Minneapolis has made it possible for the large elevator concerns to resume the purchase of grain, and as a result trade is assuming normal proportions, collections are moving more freely and the disturbance in money matters apparently has passed. At Cleveland, while industrial conditions remained unsettled and a number of manufacturing establishments have reduced their operating forces the banks are relaxing to a considerable extent and are taking care of all necessary transactions.
"The restriction governing deposits in Cleveland savings banks also is to be lifted. At Boston commercial and industrial conditions are more hopeful, although the monetary situation is acute and business operations are prosecuted on a somewhat smaller scale. There is noticeable in all directions, however, a tendency toward curtailment of production and a slowing down of manufacturing plants.

TO BUILD AT ONCE \$10,000 HOTEL IN SOUTH JANESVILLE

Improvement Co. Decide on Move This Morning—Two-Story Brick Structure Will Be Erected Under Direction of Hayes Brothers.

The South Janesville Improvement Co., at a meeting held this morning in the office of Fred L. Clements, the secretary, decided to erect at once a two-story brick hotel at the corner of Kollong street and Belmont avenue in the new addition. The new structure is to cost in the neighborhood of \$10,000 and Hayes Brothers were authorized to secure plans, take charge of the building operations, and rush the project through at the earliest possible date. As the plot of the new addition had not been recorded, the hotel site will be more easily located by readers when it is stated that it is to be situated at a point just south of the place where the Belmont road crosses the railroad, and just across the road from the point where the intersection line curves to the southward. If the favorable weather continues the roof may be on the new hostelry by spring. Besides the Messrs. Clements and Hayes, the following are members of the Improvement Co.: C. S. Jackson, Wm. G. Wheeler, John M. Whitehead, and W. G. Maxey of Oakshoo.

Manager of St. Charles: Edwin J. Carroll, who was at one time clerk at the Grand Hotel in this city, has been appointed manager of the St. Charles hotel in Milwaukee. After going to Milwaukee he was behind the desk at the hotel for a time. He was popular with both the traveling public and local residents and the management of his promotion will be good news to his many friends.

husband sold the famous Bullfrog mine
to Charles M. Schwab for \$5,000,000,

THE PRICE—AND THE COST.

The cost of the paint needed for
your house is more important than
the price of it; you may pay more
than usual for the paint and still
have it cost less than usual; but, of
course, if you can get that kind of
paint for less money than usual, the
cost of that paint is less. That's the
case with Archibald, a housewife of
Waterloo, Wis. He bought ten gallons
of Dove brand and Zinc Paint for
his house; his painter, Sid Chastin,
said he would need it; so, did A. J.
Thompson, the druggist who sold the
paint. When the job was done—two
coats—had five gallons left. You
can judge how surprised they were
Eight years before, the same house
had one coat of lead and oil and took
eight gallons. The cost of a thing
isn't always in the price.

GAVE TEN CENTS TO

Ex-Mayor Hutchinson Finds Relic
of Boyhood Days By Accident.
Last Night.

While looking over the papers left
by his father, former Mayor James F.
Hutchinson discovered a certificate
showing, when but eight years old,
he had given ten cents for one share
in the Soldiers' Home at Milwaukee,
of which William Plankinton was
treasurer. The certificate Mr. Hutchin-
son remembers was one of those
subscribed for by school children
in 1865, when he was but eight years
old, and his finding the certificate
recalls his pleasure at being able to
do his share of work for the old sol-
diers and their orphans and children.
He will keep the certificate as a
memento.

CURING WEATHER HAS
HELPED TOBACCO

Leaf War in Good Shape to Be
Handled During the
Past Week.

The first curing weather in some
weeks commenced Wednesday and
continued long enough to bring the
hanging leaf into a better condition so
that growers could remove some por-
tion of the crop if they desired, says
the Edgerton Reporter. This will per-
mit the tobacco to be examined more
critically and enable buyers to fam-
iliarize themselves with the general
character of the crop. It exhibits
very little inclination to do so at this time.
It is hardly probable that any large
proportion of the crop will be taken
down for stripping at the first curing
because most growers prefer to wait
until the leaf comes in and out of case
a few times before starting the work,
as it has a tendency to even up the
colors. As yet nothing has developed
that would indicate any movement to-
wards the buying of the new crop.

The market for old goods seems
held up in the grasp of "tight" money,
and not much relief may be looked for
until the financial flurry has passed.
The trade is simply doing the best it
can under the circumstances. The sale
of a couple lots by local packers
amounting to about 100 cases of '06
to an eastern jobber, is the only trans-
action reaching us for the week.
The shipments out of storage reach
about the normal amount, say 500
cases, for the week to all points from
this market.

THANKSGIVING
IN THIS FAMILY

"I firmly believe Father John's Med-
icine saved my wife from an early
grave and restored her to her young
family," said Mr. Cornelius O'Brien
of 189 Charles St., East Cambridge,
Mass. "For eighteen months, Mrs.
O'Brien suffered from nervous pro-
stration, and the several medicines
recommended by her doctor did her
no good. On a friend's advice, she
began taking Father John's Medicine,
and at once began to improve. She
has now regained her health and says
she will never lose faith in Father
John's Medicine."—Mr. O'Brien was
recently cured of a serious cold by
this old remedy. He gives Father
John's Medicine to the babies to keep
them fat and rosy, and says: "No
family should be without a bottle of
Father John's Medicine."

Reading from the top down the straight row are the following:
Wauchoa, left tackle; Gardner, left end; Little Boy, center; Hauser,
full back; Aftall of a Bear, left guard; Hendricks, right half. In the low-
er left hand corner is Antonio Lubo, right tackle and captain.

HUMAN RACE AFFLICTED WITH QUEER DISEASE

Cooper Says Internal Parasites Cause Much
Suffering Everywhere.

The following remarkable statement was recently made by L. T. Cooper, D. M. Barlass, who has been so widely discussed throughout the country during the past year, and has sold in such enormous quantities in leading cities:

"It is now a well-known fact that wherever I have introduced my New Discovery medicine, hundreds of people have brought internal parasites, or tapeworms, to me. In many cases these people did not know the nature of the parasite, and were consequently extremely nervous until I explained the matter to them. In some cities so many have had this experience that the public generally became alarmed."

"I take this opportunity of explaining what these creatures are, and what I have learned about them in the past. Tapeworms are much more common than would be supposed. I venture to say that ten per cent. of all chronic stomach trouble, or what is known as a 'rundown' condition, is caused by them. An individual may suffer for years with one of these great parasites and not be aware of it."

"Contrary to general belief, the appetite is not greatly increased—it only becomes irregular. There is a general feeling of faintness, however, and a gnawing sensation in the pit of the stomach."

"People afflicted with one of these parasites are nervous and depressed. Their chief sensation is one of languor, and they tire very easily. Lack of energy and ambition affect the body, and the mind becomes dull and sluggish. The memory becomes not so good, and the eyesight is generally poorer."

"The New Discovery, in freeing stomach and bowels of all impurities, seems to be fatal to these great worms, and almost immediately expels them from the system. I wish to assure anyone who has the experience just related with my preparation, that there is no cause for alarm in the matter, and that it will as a rule mean a speedy restoration to good health."

The Cooper medicines are a boon to stomach sufferers. We sell them. —E. B. Holmstrom.

BRYAN HAS RELIEF PLAN FOR FINANCES

GOVERNMENT TO GUARANTEE
NATIONAL BANK DEPOSITS.

NAMES ITS ADVANTAGES

Representative Sulzer Prepares Bill to
Revise and Modernize the Country's
Currency Laws.

Washington, Nov. 22.—William Jennings Bryan had a busy day in Washington Thursday. He arrived here at seven o'clock and went immediately to the residence of Carter T. Bridge, on Capitol hill. He was a guest in the afternoon at the wedding of Mr. Bridge's daughter, his attendance on the ceremony being one of the objects of his visit to Washington.

In the evening Mr. Bryan gave out a statement on the financial situation in the course of which he said:

"I believe it is possible for the government to give immediate relief by an act of congress providing for the guaranty by the government of all deposits in all national banks, the banks thus guaranteed to agree to reimburse the government for any losses incurred and to make this reimbursement in proportion to their deposits. The advantage of this plan is:

"First, that every depositor in such guaranteed bank will feel secure."

"Second, the expense of it will be paid by the banks which get the benefit of it and this expense will be small compared with the benefit gained."

"Third, it can be put into effect immediately, thus restoring confidence and enabling business to be resumed."

Thinks Banks Would Like It.

"It is probable that all of the national banks would be willing to take advantage of this guaranty because the additional security given to their depositors would be of great advantage to the banks. During 40 years the average annual loss to depositors has been small, less than one-tenth of one per cent., so small that it would be an insignificant tax upon the \$4,000,000,000 or \$5,000,000,000 of deposits. The government would have ample security in the capital surplus for the banks which would voluntarily join in the plan."

"As each bank will become interested in the proper management of every other guaranteed bank, it would be similar to secure the legislation necessary for the correction of such abuses as exist and for the better management of the banks—for instance, legislation preventing over borrowing by directors and officials of the bank, and legislation preventing speculation by officials."

Sulzer Has Currency Bill.

Legislation to revise and modernize the currency laws will be embodied in a bill which Mr. Sulzer, of New York, will introduce on the convening of congress. Mr. Sulzer's measure will provide for the issuance of emergency currency by a government bank of issue, for which the bill also provides. The plan was laid before President Roosevelt Thursday by Mr. Sulzer, who says he has the approval of many prominent bankers for his plan. Mr. Sulzer favors the establishment of postal savings banks, and predicts that currency legislation will be the absorbing subject of the coming session.

Make It 100, Then

Bolton Free Press: In a lengthy editorial on good roads the Janesville Gazette favors a bond issue and asks the question, "What if the county should

build 500 miles of roads for 'Avo years?' Can't do it, brother. You might just as well suggest building a road to Mars. We have only 1,200 miles of road in the county."

ICE HAD PRESERVED MAMMOTH.

Remarkable Discovery Made in Frozen Siberian Bog.

Sixty-one years ago a young Russian engineer, Benkendorf, saw the Silver Lena in Siberia release a dead mammoth frozen ages ago in the bog. There had been exceptionally warm weather in the north of Siberia, and the river, swollen by melting snow and ice and torrential warm rains, swept out of its old channel and carved a new one, carrying to the sea vast quantities of its former banks and furniture. The thawing bogs over which it raced. As he made his way in a steam cutter against the current Benkendorf saw the head of a mammoth appear above the flood. Itush upon rush of water more and more released the body. Its hind legs were still imbedded when he saw it, but 24 hours liberated these. The mammoth had sunk, feet first, into a bog. The ooze had frozen over it; successive tides had heaped soil and vegetation upon it. Bone and flesh and hair were perfect. They secured it and cut off its tusks; they dissected it and found in its stomach the last meal it had eaten, young shoots of the fir and pine and masticated fir cones. They were still at work when the river, spreading farther, engulfed them. The men escaped, but the waters surged over the mammoth and carried it for carrion to the sea.

FIGHT DESPITE GOV. CUMMINS.

Militia Captain May Be Punished for Not Stopping Mill.

Des Moines, Ia., Nov. 22.—Adj. Gen. Thrift of the Iowa National guards will order an immediate investigation of the conduct of Capt. Kulp of Davenport, who was ordered late Thursday afternoon by Gov. Cummins to assemble his men of company B, Fifty-fourth regiment, under arms and stop the prize fight scheduled for that night.

It is the impression of Adj. Gen. Thrift that the fight at Davenport was a prize fight and in clear violation of the law, and that under the strict orders issued by the governor to Capt. Kulp, the militia should have stopped it.

Efforts were made after it was known that the fight would proceed to get in communication with Kulp, but without success; he could not be located at the ring. Should the circumstances justify it, the adjutant general says a court-martial will be ordered and the full penalty inflicted if disobedience shall be proved.

Davenport, Ia., Nov. 22.—"Punch" McFarland proved his superiority over "Kid" Herman Thursday night by easily beating Herman in a 15-round fight without a decision. No decision was awarded because of Gov. Cummins' order to the militia to prevent a fight. But in the last few rounds a knock-out seemed probable any time and when the fight ended Herman was hanging on to McFarland, who rained terrific blows at short range on Herman's neck, head and face.

Wore Out the Snow.

My old friend Crabtree of the real early Oklahoma days tells this tale about an early day snowstorm: "One day after many days of dry weather a big snow came and visited our drought-stricken land. The faces of the farmers were all smiles, because it meant a wheat crop. But alas! an old-time wind came up from the south that blew about 40 miles an hour and drifted the snow northward for a day. Then came an 80-miles-an-hour wind from the north that drifted it back south again. This condition of wind continued daily until the snow storm was blown and worn out and not a snowflake could be found anywhere in the county."—Watonaga Herald.

MONTREAL'S TROTTING TRACK

Expected to Be Finished in Time For
Ice Races in January.

Montreal will have a new trotting track next summer, not as was rumored during the summer, out in St. Laurent, at the back of the mountain, but in the northeast end of the city only a stone's throw from Dolomieu park, which until the past summer was the scene of all the harness meets in Montreal the last few years. The lease of the new property, which is for a term of thirteen and a half years, was signed last week, and work on the plant is to start immediately. In fact, it is hoped that by the time winter sets in enough work will have been completed to permit of the flooding of the track so that ice meets may be held in January and February. Should this be impossible the promoters are confident that they will have everything in readiness for the summer season, when the programme will probably be five days' racing in May, June, July, August and September.

Famous Jockey Now a Bellboy.

The latest accession to the forces of bellboys at the Central hotel, Omaha, Neb., is F. Toots Lawless, once a noted jockey, who made and squandered \$100,000 in his turf career. He rode for ten years, winning thousands of dollars and riding in first place in some of the biggest racing events in the world. Sept. 13, 1905, he rode May 8, a promising mare of the August Belmont stable, at Belmont Park. He got into a pocket. When he got out Toots was on the ground and May 8, on top of him. Toots' leg was broken. He made an average of \$10,000 a year. "What did you do with it?" he was asked. "Spent it," was the laconic reply. "Spent it faster than I made it. Had a fine suit of rooms in Longwood square, New York, and more flunkies than I know what to do with."

BOROUGH BANK MEN INDICTED.

President, Cashier and Controlling Stockholder in the Tolls.

New York, Nov. 22.—The Kings county grand jury, which is investigating the recent management of the suspended Borough bank of Brooklyn, returned indictments Thursday charging larceny and other offenses against Howard Maxwell, who was president of the institution when its doors were closed; Arthur D. Campbell, the deposed cashier, and Wm. Gow, a director who holds a controlling share of the bank's stock.
